Ray S. Cline

25X1A

17. The Director turned to OXCART handing around pictures  
(Control numbers \_\_\_\_\_). The Director gave the information  
contained in the briefing notes, copy attached (TAB 5) The Director did  
not touch on the topics mentioned in paragraph 5. For the benefit of the  
two new members, the Director pointed out that this was an aircraft  
developed by CIA and is the most advanced aircraft in the world today.  
He stated it had been remarkably successful to date. The Director  
indicated that it appears that this aircraft will have possibilities for  
military utilization. Mr. Vinson indicated that if it could be utilized for  
military purposes that was fine but that the military should not compromise  
the basic purpose of the aircraft.
